Information Visualization

Name: Gahan Jagadeesh (gj717)

Viz 1

I have used heat maps for the first visualization.

This heat map can be used to answer the questions.

The major donors are United States, United Kingdom, Germany etc.

U.S donate mainly to India, Saudi etc.

Viz 2

For the second visualization, Data cleaning gives us the top 5 purposes and they are visualized using adjacency matrices.

The major purposes are "Air transport", "Rail transport", "Industrial development", "RESCHEDULING AND REFINANCING", "Power generation/non-renewable sources". Certain countries donate using multiple purposes. Some countries only donate to certain purposes.
